Physician Notice to Medicare Beneficiary

Medicare Part B pays only for services that are determined to be reasonable and necessary under section 1862(a)(1) of the Medicare law. If a particular service is not reasonable and necessary under Medicare standards, although it would otherwise be covered, Medicare Part B denies payment for that service. I believe that, in your case, Medicare Part B is likely to deny payment for non-covered services (such as tetanus injections and pneumonia injections if given less than five years apart), as well as Medicare Part B's annual deductible and copayments unless you have a secondary supplemental insurance that covers these costs.

Beneficiary Agreement to Pay

- Medicare does not pay for non-covered services.
- Medicare does not pay the annual Part B deductible or co-payments.

I have been notified by my physician that, in my case, Medicare Part B is likely to deny payment for the services identified above. I have read and understand the above statement. I accept liability for those services not paid by Medicare.
